Mark and Gretch Hladish with Jo Hodgins are a professional vocal group, recording artists and performers in residence at Rosewood Music Theater in Delavan, Wisconsin. They have produced 18 original themed cabaret shows, entertaining thousands of guests over the last 15 years. Their newest recording project is titled ***Country Crossroads*** – a collection of southern rock classics combined with contemporary new country hits. As a powerhouse singing group, the trio searches for songs that feature strong vocal harmonies. For their latest release they have chosen songs from artists such as – James Taylor, Nitty Gritty Dirt Band, Pure Prairie League, Crosby Stills and Nash, The Eagles, The Dixie Chicks, Darius Rucker, Flatt Lonesome, Zack Brown Band, Sugarland, Lady Antebellum and Little Big Town. In addition, three of the tracks from ***Country Crossroads*** are original compositions - *HeartBreaker*, *Love's Like A River* and *Too Much Of Us On My Mind*.

Responding to requests from their musical friends and family, they have decided to do a tour of informal performances and concerts – featuring their new project – ***Country Crossroads***. During selected dates in January and February 2019, MGJ will schedule intimate performances throughout the country. These performances will consist of professionally produced 90-minute concerts, including state of the art Bose Sound Systems, appropriate for small venues and private house concerts.
